

## Water Hero Campaign

Hi all,

We made the difficult decision to postpone the 25<sup>th</sup> Waterloo Wellington Children's Groundwater Festival until 2021. Without seeing everyone in person this year, we have a number of resources that we would like to share with you as parents, teachers and children who are at home and trying to manage during this difficult time. Please join us in learning all about water through these simple kitchen science experiments.

Our resources will give you a chance to learn about:

- Where does our water come from?
- How do we use water daily?
- What is a water cycle?
- Doing a water audit in your home,

And many more informative resources that you can find on this site ([www.wwcgf.com](http://www.wwcgf.com)) and on the Children's Water Education Council website ([www.cwec.ca](http://www.cwec.ca)) in the Kids Corner and Educator section.

### **Water heroes needed**

We also have a special assignment for your children. Please have your child tell us how they are a 'Water Hero' through a written message, a short video, a photo with a written message or a photo of them doing something water hero worthy.

We will choose one lucky winner on May 28, 2020, to win a classroom visit. We will build an Edible Aquifers with their class, which is a fun lesson about water (that may involve ice cream).

Send your 'Water Hero' entry;

Name of Child \_\_\_\_\_

School \_\_\_\_\_

Water Hero SUPER POWER \_\_\_\_\_

Photo of your child!

Send via email ([rsusan@cwec.ca](mailto:rsusan@cwec.ca)), or social media #waterhero, #groundwaterfestival

Thanks for taking the time to be part of the change for a better and healthier environment.
